EASY TO GET STARTED

BENEFITS

2x advantage

OnlineToken provides you with a unique solution that blends the benefits of both appointment system and waitlist.

Shows availability

Depending on your customers' position in the queue or the waitlist. It informs them whether their service provider is available or not.

It informs customers about an upcoming appointment and notifies them when they are getting late for an appointment.

Customizable

We customize the solution specific to your business needs keeping in mind the intricate aspects of operation.

OFFICE, INDIA
